WORK EXPERIENCE

SRM Institute of Science and Technology, Chennai. July 2024 - Present

MERN Stack Developer

- Full-Stack Feature Development: Engineered and maintained key modules for a large-scale E-Governance system serving faculty and HoDs, facilitating institutional data collection, processing, and validation.
- Frontend Development: Built dynamic, responsive, and reusable UI components for faculty data entry forms and HoD approval dashboards using React.js and Next.js, enhancing user experience. State Management: Implemented effective state management solutions using Redux and Context API to handle complex application state across multi-step workflows.
- Backend Engineering: Designed and developed secure and scalable RESTful APIs using Node.js and Express.js; implemented complex business logic for data validation and user role-based access control.
- Database & Performance: Modeled data and authored optimized MongoDB queries to ensure efficient data retrieval and consistency across faculty and HoD dashboards.
